Introduction

Mercedes-Benz offers an extensive line of remanufactured parts in over 20 different product lines which can provide your customers an ideal low-cost alternative to new Mercedes-Benz Genuine Parts for vehicle repairs that are in line with the age and current market value.

PARTS THAT PRESERVE. QUALITY. STANDARDS. SAVINGS.

All Mercedes-Benz Genuine Remanufactured Parts meet the same standards for quality, reliability and value as new Mercedes-Benz Genuine Parts. The additional cost savings and reduced environmental impact are added benefits we bring to our remanufactured parts, and you can pass on to your customer. And, with every core part returned to us, you can save on disposal costs which is an added benefit you your and your business.

OUR REMANUFACTURED PARTS OFFER:

Quality. Mercedes-Benz Genuine Remanufactured Parts set the standards for quality and reliability – standards that maintain the value and performance of the vehicle – that which non-Mercedes-Benz aftermarket parts may not be able to match.

Availability. All Mercedes-Benz Genuine Remanufactured Parts supplied by Mercedes-Benz dealerships are kept in stock and are available either on demand or at short notice.

Precise Fit. Mercedes-Benz Genuine Remanufactured Parts include powertrain, mechanical parts, and electronics and are available through the dealer network designed specifically for the vehicle.

Competitive Pricing. Mercedes-Benz Genuine Remanufactured Parts are less expensive than new parts, and sustain a profitable remanufacturing cycle in the long term. Returning core parts to your local dealership saves on the cost of disposal, and can provide a lower cost of ownership for drivers.

Warranty. Mercedes-Benz Genuine Remanufactured Parts have the same warranty Coverage that applies to new Genuine Mercedes-Benz Parts. Note: Engine warranty is four year/fifty thousand miles and transmissions are two year /twenty four thousand miles, whichever comes first.

Environmental Benefits. Using Mercedes-Benz Genuine Remanufactured Parts can reduce environmental impact by reusing materials and requiring less energy for production.

What is Remanufactured?

The differences in terms of how a part is brought back to working condition are often subtle, but important as they frequently carry different or shorter warranties.

DEFINING “REMANUFACTURED”

Remanufacturing of automotive parts begins with an inoperative, failed or worn out part called a “core”. This core is disassembled so that the subsystems and components can be cleaned, tested, repaired/reworked or replaced. The components are then brought back to production specification, reassembled and tested such that the expected performance of the reassembled equipment can be defined and warranted.

- **The ultimate green option:**
Up 80% savings in material consumption.
Up to 90% savings in energy costs.

DIFFERENTIATING “REMANUFACTURED” FROM THE REST

- **Repaired:** usually refers to a part that is simply made operational again.
- **Recycled:** typically refers to a salvaged/used part.
- **Restored/Reconditioned:** refers to older parts, typically parts that are “freshened”.
- **Rebuilt:** refers to a simple replacement of only those components that may be broken or unusable, without a complete disassembly and inspection.

Limited Warranty Coverage

Mercedes-Benz Genuine Remanufactured Parts have the same limited warranty coverage that applies to new Genuine Mercedes-Benz Parts.

THE LIMITED WARRANTY COVERS

- **Defects.** Mercedes-Benz USA, LLC (MBUSA) warrants to the original purchaser and each subsequent owner of Genuine Mercedes-Benz parts, equipment, or factory approved accessories – except tires – installed on a Mercedes-Benz vehicle which is operated in the USA under normal use and service, to be free from defects in material and workmanship.
- **Warranty Period:** This warranty is for 12 months, unlimited mileage from date of purchase.
- **Transmissions:** The Limited Warranty Coverage includes 24 months or 24,000 miles, whichever comes first, from date of purchase.
- **Engines and long blocks:** The Limited Warranty Covers 48 months or 50,000 miles, whichever comes first, from date of installation.

WARRANTY COVERAGE PERIOD

The warranty period starts from the date of purchase of the part or accessory. The dealer (passenger car or light truck, as applicable) must be furnished with the customer's copy of the original sales receipt on counter sales or the customer's copy of the repair order on dealer installations to validate the date of purchase.

NO CHARGE WARRANTY REPAIR

Warranty repair will be made at no charge for parts and labor when performed at an authorized Mercedes-Benz Center (Passenger Car or Light Truck, as applicable).

Webparts

ADVANTAGES TO WEBPARTS ONLINE PARTS

ORDERING TOOL:

- Online parts look-up based on the latest online EPCnet version.
- Increased price transparency.
- Online display of parts availability to improve ordering reliability.
- Time savings and improved efficiency due to simple order process.
- Automatic order email notification.
- Improved long term partnerships.

Dealers, for more information on Webparts, a how to guide on sponsoring your ISP customers, training documents and a video tutorial please visit the new "Webparts" section click on the PAC Website link.

The WebParts URL is <https://aftersales.i.daimler.com>

THE LIMITED WARRANTY DOES NOT COVER:

- **Damage Due to Accidents, Misuse or Negligence.**
Parts damaged due to abuse, misuse, neglect, alteration or accident, or which have been improperly installed, repaired, lubricated, or used in applications for which they were either not designed or approved by MBUSA. Defects or damage from improper testing, operation, maintenance, adjustment, or alteration or modification of any kind.
- **Normal Maintenance.** The expense for cleaning, adjusting, or replacing parts, such as but not limited to, air, oil, and fuel filters, windshield wiper blades, light bulbs, distributor points, or condensers, in the course of normal maintenance is the owner's responsibility. The expense for replacing spark plugs that are oil or lead fouled or which fail due to the use of low grade fuel, improper selection of heat range or mis-application is the owner's responsibility.
- **Damage Caused by Repair Parts.** Malfunctions caused by the use of other than original Mercedes-Benz service parts and accessories.
- **Damage From the Environment.** Parts made from cloth or leather (upholstery, convertible tops, trim items) wood, paint or chrome, which have been affected by airborne fallout, such as chemical and tree sap, or by road salt, hail, windstorm or other environmental factors. Damage caused by an act of God, including without limitation, earthquake, fire, flood, storms or other acts of nature.
- **Damage to Glass.** Glass breakage or scratches are not Covered unless positive physical proof that they are a result of a manufacturing defect can be established.
- **Non-M-B Center Installation.** Labor for removal and replacement of defective parts and accessories sold by an authorized Mercedes-Benz Center (passenger car or light truck, as applicable), if the subsequent repair is performed by a non-authorized repair facility. Labor charges shall be paid only for services provided by an authorized Mercedes-Benz Center (Passenger Car or Light Truck, as applicable).
- **Non-Defective Parts.** All parts, including parts sold over-the-counter (non-M-B Center installation) are subject to warranty parts testing. If a warranty part test result shows "No trouble found," MBUSA will debit the dealer for the entire claim. For parts sold over the counter, the dealer is entitled to recover any expenses from the installer.
- **Transferred Parts.** Any service parts equipment and accessories transferred between vehicles after installation are no longer Covered by this warranty.
- **Extra Expenses.** This warranty does not cover payment for loss of use of the vehicle during warranty repairs nor lodging bills, substitute transportation, rentals, other travel costs, towing, telephone calls, loss of pay or any other indirect or consequential damage.

**FOR ANY QUESTIONS REGARDING
AN EXTENDED LIMITED WARRANTY,
CALL 800-FOR-MERCEDES.**

Core Parts Return Guidelines

Please note: All shipments that contain hazardous materials must be identified, packed, marked, labeled and documented in compliance with all applicable IATA-DGR and 49 CFR (U.S. DOT) HAZMAT shipping regulations.

PACKING INSTRUCTIONS

All core parts require the MBUSA Return Label to be attached to them. They are to be packed in cages and have the Return Document also included. Both the Return Labels and Return Documents are printed in Paragon. Please note: all shipments that contain hazardous materials must be identified, packed, marked, labeled and documented in compliance with all applicable IATA-DGR and 49 CFR (U.S. DOT) HAZMAT shipping regulations.

If a dirty or undrained core is received, you will be contacted, advised of the deficiency and remedial action will be taken on our part. We will absorb the cost to clean and/or drain the first non-compliant core received. You will also be advised as to requirement compliance for all future core returns.

PREPARE PART(S) SHIPMENTS TO THE PDC/DEALERS AS FOLLOWS:

- Where applicable, the exchange unit shipping carton is to be reused when returning cores. Also, reuse the packing material to secure the core in the carton.
- Properly pack the part in either the original box or a suitable sized box.
- Wrap the part in protective packing material to restrict movement, and avoid damage to other parts, before placing into outer shipping container.
- Do not combine heavy and light weight parts within the same box Example: Transmission and phone; alternator and COMAND.
- Ship Haz-Mat items according to government regulations.
- Carefully package all items to ensure they are not damaged by other parts.
- All fluids (oil, A/T fluid, fuel, P/S Fluid) must be completely drained.
- Reinstall all packing plugs and caps if applicable (i.e. A/C Compressors, Engine, transmissions,..etc)
- The exterior of the core must be completely cleaned. All heavy accumulation of oily dirt, grease and grime must be removed; use a degreaser, high pressure hot water hose, power washer or steam hose. Do not allow water to enter the core.
- All engine cores must have the water pump reinstalled and torqued to the block according to Service Specifications. The water pump is used as a lifting point during the unloading process at the factory. It is important to follow this requirement in order to prevent injury or damage.
- The engine core is to be secured in the shipping palletainer and, if available, re-install the protective plastic bag supplied with the exchange unit.

Note: MBUSA reserves the right to reject the core part return if the part(s) were not properly packaged according to the guidelines described above.
