

68–450 Removal and installation of panelling in rear center

Removal

- 1 Remove coupe roof.
- 2 Open well lid.
- 3 Remove rear side wall (68–455).
- 4 Pull off carpet from top down.

Note: The carpet will be damaged during removal and should always be replaced.

Installation

- 5 For installation proceed vice versa. For gluing use MB-universal glue, part No. 000 989 92 71.
