Special tools

Internal puller 14.5–18.5 mm	11004-7247	000 589 25 33 00
Countersupport	11004-7724	000 589 33 33 00

Removal

1 Pull ball bearing and closing ring together out of crankshaft by means of puller.

Installation

- 2 Provide new ball bearing (1) with high-temperature grease and knock into crankshaft by means of a suitable mandrel.
- 3 Knock-in closing ring (2).
