

Supply printed operator's manual and replace if necessary

Model 217 with code 801

Model: A217 with code 801

Work procedure

i Supply printed operator's manual and replace if necessary

1. Check whether the operator's manual is in the vehicle document wallet and whether it is the correct version.

i If **no** operator's manual is found, a printed operator's manual must be inserted in the vehicle document wallet.

i If there is a printed operator's manual, compare it with the parts table.
